Chapter one  
The class of Cool Stuff Primary

Today is an exciting day as the children of Cool Stuff Primary in year 4 flyer class are preparing for their school trip. Mr Sausage is the main teacher and his assistant teacher is called Mr Frie. Mr Sausage is very tall and has enormously long legs, he has a bold head a like a shiny apple. Although he has very long legs, he has extremely tiny little feet. His assistant Mr Frie has a square shaped head and body. In class flyer there are thirty four children in total, Billy is the loudest in the class and is always the first one to get put on a step. A step is what you get when you are not listening to the teachers or not doing as you are told. Step one is a warning, step two is your second warning, step three is where you go out of the class for ten whole minutes. Step four is where you have to go see the head teacher Mr Pineapple, although his name sounds funny a trip to Mr Pineapple is no joke. Step five is when you have been really bad, Mr Pineapple covers you in slime and bird seeds and makes you sit on the school roof. The birds go "peck, peck, peck" all day long at the child who's been put up their. Billy did not have any friends because he is a bully, he is never nice to any of the other children. He is a disgusting little boy who always has a snotty nose and is always mucky. His sister Snowflake Ride is in year one, she is the complete opposite of her brother Billy, she is polite, kind and generous and always clean. Alexa and Katie are the two most popular girls of the class. Alexa has long brown curly hair, she has brown eyes and very long eyelashes. Katie is her best friend she has long blond strait hair, green eyes and very white teeth. Alexa and Katie are best friends because they like to play the same things together.

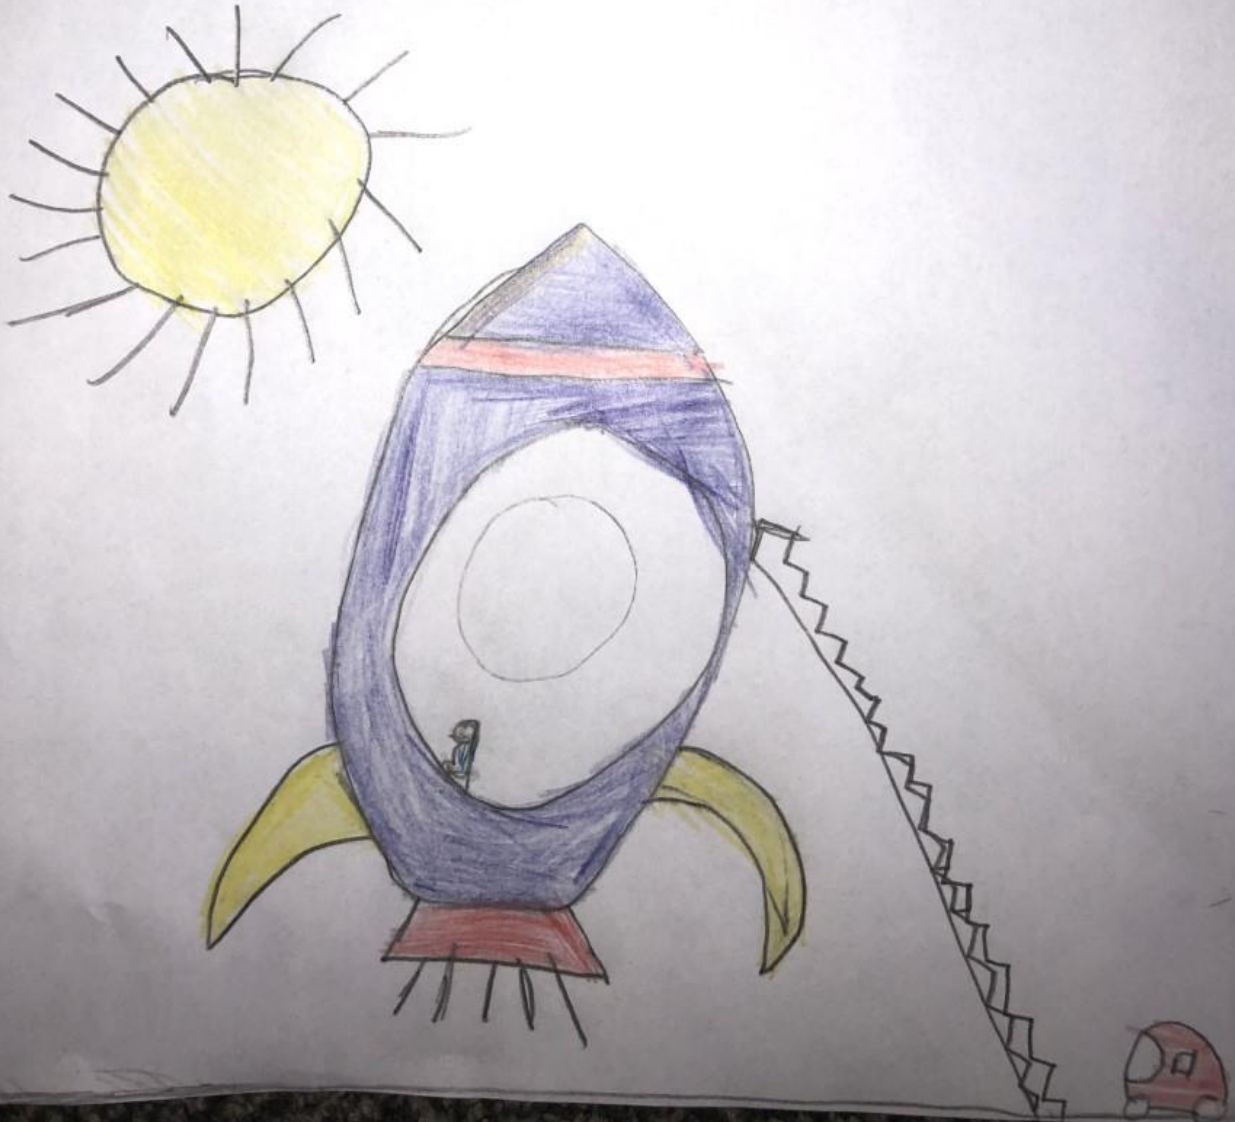

Chapter two  
The morning of the big trip

It's the morning of the trip all the class are getting ready. The teachers handed out the lunches to the children that they had brought from home. Inside their lunches they have milky ways and cheese sandwiches. They are feeling very excited as they are waiting for the rocket to arrive to take them on their trip to Dalula. Dalula is a planet that the class have been learning about, on Dalula there lives a family of Pola Bears even though the planets temperature is very hot. The family is called Greenlea's, there is seventy Pola Bears in total. There is a Mum a Dad, twenty children and lots of Uncles, Cousins, Grandparents and Aunties. The class is very excited to meet them as they all wait giddily. Alexa says to Katie "I am so excited to meet the Pola Bears". "Me too" says Katie. "I'm going to punch them in the nose" grunts Billy under his breath. Some of the children in the class are feeling nervous and talk about it among them selves. "It will be ok, it will be fun, we will all stay together" Mr sausage comforts them.

Chapter three  
On our way

"The rocket has arrived" announces Mr sausage, "YIPEE" cheer the class. "Oh yay" says Billy sarcastically. They had never been on a class trip before! The rocket was indigo with one giant sea through window. The door opened and a ladder came from the rocket "shwoooooosh" as it slowly came to the ground. The children ran up the stairs all apart from Billy who was huffing and puffy kicking his feet behind "this is great fun" he mumbled moodily. They all got a seat in front of the humongous window. On the way up in the rocket they talked about what the saw "I can see the bright blue sea" says Alexa. " Look theirs a sky scraper and some mountains" Katie exclaimed. It was an amazing site to see from the sky above, the clouds in space and beyond to Dalula. They felt amazed by what they saw "AMAZEBALS!" shouted Billy. "I think Billy is starting to have fun" Mr Frieys whispered to Mr Sausage. Bob the pilot makes an announcement over the megaphone "prepare for landing, keep your seat belts on" he giggles. All the children stand up and led by the teachers begin to exit the rocket. They slide down the slippy slide, "whooooooooooh" they scream as they whoosh down. The children land in a big pile of cheese "where are we" they grasped "why are we here ?".

Chapter four  
Where have we landed.

Mr Sausage realised that they hadn't landed on Dalula but he didn't know where they were. Mr Sausage asked the polite " why are we not on Dalula?", " I was playing a trick on you and the rest of your class ."laughs the pilot. Mr sausage laughs as all the children are laughing playing in the cheese. " I no a joke about cheese" Billy announces" all the children stop what they are doing look at Billy "what's the joke" they shout. "What kind of cheese is not you're cheese?" Billy laughs, "I don't no" the class says puzzled. "NACHO CHEESE" Billy shouts. All the children and even Mr sausage and Mr Friej all roll around of the floor laughing. "That was a good one Billy" giggles Katie. Billy seems to be having fun, it is the first time the class have seen Billy laugh. Mr Sausage and Mr Friej decided that the children can stay their for the day seen as they are having so much fun. They all have fun all day and play games like, mouse trap, cheese ball fights and there very own version of rock paper scissors, moon, star, cheese. It gets to 5 o'clock in the evening and it is time to say good bye to planet MarsMoon.

Chapter five  
Say goodbye to Marsmoon .

The day has come to an end and the students of Cool Stuff Primary have been asked to say goodbye to Marsmoon and go back to Earth. The stairs on the rocket came down again and all of the students climbed up into the rocket. They are all very tired after having a day of so much fun and they fall asleep on the way home. When they arrive back at school their parents are all waiting for them. Billy was happy to see his Mum and Dad and even his little sister Snowflake ride. Billy runs to his family and gives them a big hug. "Ooooo this isn't very you" says Billy's Mum "it's not often we get a hug from you". Billy says " I'm going to be good for the rest of my life now". "Good" Billy's Mum Dad and sister sighed happily. Alexa's Mum has come to collect her and Katie as they are having a sleep over " that trip was absolutely amazing" says Katie. " even though we got lost and ended up on Marsmoon we had soooooo much fun" said Alexa. All the children and teachers thank Bob the pilot for playing a trick on them because they had such a fun day.
