

What a Wonderful World

By Oulton Primary School

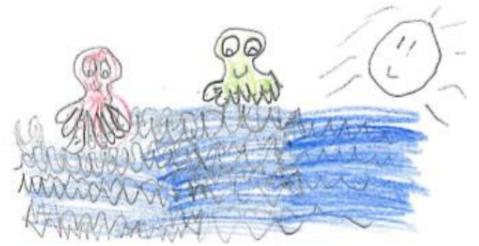

I see an ocean deep, an octopus swimming too.

The moon shining brightly on me and you,

And I think to myself,

What a wonderful world.

I see orcas splash from water cold.

As we learn from the wise and the old,

And I think to myself,

What a wonderful world.

I see oceans deep, colourful coral too,

A parrotfish smiling at me and you,

And I think to myself,

What a wonderful world.

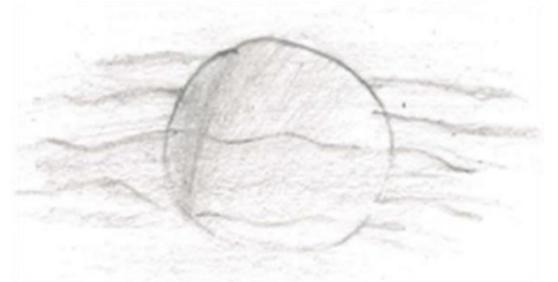

I see the bright morning sun and the ghostly moon at night,

Warm tropical seas and ice caps of white

And I think to myself,

What a wonderful world.

I see ice cream that is cold,

Clouds up above,

Worms that wiggle and tigers I love.

And I think to myself,

What a wonderful world.

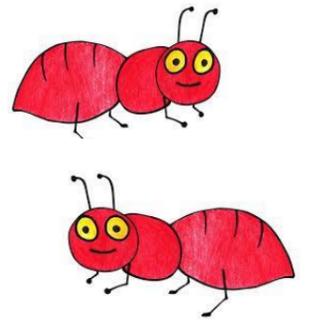

I see clouds of white and black stars too,
The family stay close and say I love you,
And I think to myself,
What a wonderful world.

I see ants working hard, swimming swordfish too,
I see them moving and eating all the day through,
And I think to myself,
What a wonderful world.

I see the bright yellow sun, tall twinkling trees,
A long-necked giraffe and sweet strawberries,
And I think to myself,
What a wonderful world.

I see robins red, sailfish too,
I see them fly up, down and through,
And I think to myself,
What a wonderful world.

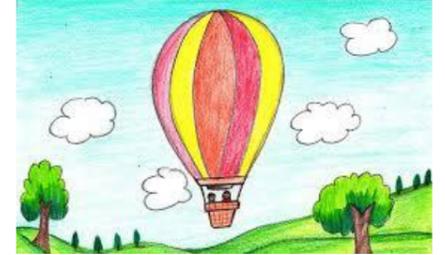

I see bouncing rain, a creaking old tree,
People laughing and enjoying cups of tea,
And I think to myself,
What a wonderful world.

I see a grey stingray swimming in the ocean,
And a beautiful butterfly flying high in the sky,
And I think to myself,
What a wonderful world.

I see colourful leaves on the ground,
Hot air balloons fly by and around,
And I think to myself,
What a wonderful world.

I see flying fish swimming free,
Windmills turning in the pure blue sea,
And I think to myself,
What a wonderful world.
